

# STUDENT STORY

## David & Marion Njeru

### **Qualification:**

Masters in Ministry and Diploma in Counselling

### **Why did you choose your degree and what do you enjoy the most about it?**

We moved to Mudgee in July last year after working in London (UK) for two and a half years. We wanted to move to a small community and so we were both excited to be offered jobs here. We are both originally from Kenya. Marion works as a Disability Support Worker and I work full time as a nurse at Mudgee Hospital.

I am really passionate about the course I am doing. I feel it is a calling and my goal is to work as a School Chaplain. Marion is also a student at CUC and she is completing a Diploma of Counselling.

### **How important is having the CUC in your local town to you and why?**

CUC Mudgee Region is absolutely fantastic. The equipment is worldclass.. from the computers, to being able to print assignments, to have secure internet. We really do have everything we need. The facility is quiet and clean and safe, which is very important. The hardest part for us is balancing working full time and studying with high course loads but the support from the management makes all the difference and it all works really well.
