

STUDENT STORY

Saydie Frim and Jessica Dearth

Qualification:

Master of Speech and Language
Pathology at Macquarie University.

What brought you to Mudgee?

We're here on prac, working with Community Health at Mudgee Hospital. We're midway through our course – this is our last prac for this year, and then we have another year to go.

How has the CUC helped you with our studies?

CUC was very useful – it was a good place to go to get out of the house and work on assignments or have some quiet time. It was good having a desk. It was also good because it's so open – you get a bit of the outside, even inside the study room.

How have you found working regionally?

We've enjoyed it so much – you get to do a whole variety of things, you're not just going one job. It's a lot more about teamwork – everybody knows everybody so there is more of a holistic focus in terms of our clients. We both desperately want to work regionally. We can feel the need there.
